

**MISSISSAUGA, ON - May 31, 2019** - Today marked the official Grand Opening of iS5 Communications Inc.'s new headquarters in Mississauga, Ontario. The move was the result of the company's rapid expansion, which led to the outgrowth of the previous office space located at 1815 Meyerside Drive, L5T 1G3.

iS5Com's new headquarters is conveniently located just off of the 401 corridor at 5895 Ambler Drive, L4W 5B7. The new facility is home to a state of the art training and customer support lab, manufacturing plant and additional warehouse space more than tripling the size of the previous facility. The new facility will be able to accommodate additional work force by 200% in the next two years.

During the ribbon cutting ceremony, Clive Dias, President and CEO spoke to those in attendance: "It gives me great pleasure to welcome all of you to the Grand Opening of our new iS5 facility. This is our third facility and hopefully won't be our last. With over 27,000 sq. ft., this facility will allow us to scale and grow the business at least, for the next couple of years."

iS5 Communications is also delighted to receive support from the Honourable Navdeep Bains, the Minister of Innovation, Science and Economic Development and Minister responsible for FedDev Ontario. "People remain at the core of innovation in every field, and the experts at iS5Com are no exception. You are ushering in a new era of cybersecurity technologies that are placing Canada as a world leader." Stated Minister Bains.
