

iES22GF

Intelligent 20 Port Managed Gigabit Ethernet Switch
IEC61850 and IEEE1613 Compliant

Product Overview

The iES22GF is an intelligent managed 20 port Gigabit Ethernet switch with 8 x 10/100/1000Base-T(X) RJ45 ports and up to 12 x 100/1000Base-X SFP ports.

The switch is IEC 61850-3 and IEEE 1613 compliant. The iES22GF provides redundancy support through functions such as STP/RSTP/MSTP assuring protection of all mission critical network applications. iES22GF can be managed via the Web UI, iManage Software Suite, Telnet, and Console (CLI) / SSH v2.

The switch is made of IP-40 galvanized steel and has a wide operating temperature range from -40°C to +85°C, which is suitable for the harshest of environments without the use of fans.
